

Amendments to the Claims:

The following listing of claims replaces all prior versions and listings of the claims in the application:

Listing of Claims:

- 1-8. (Cancelled).
9. (Previously Presented) A method for serologically identifying with improved accuracy the actual sensitizing allergen source among a variety of possible allergen sources containing cross-reactive proteins or epitopes, comprising contacting serum with a pure allergen component of limited or no cross-reactivity.
10. (Previously Presented) The method according to claim 9 for selection of treatment of a disorder involving extract, proteins or peptides derived from said actual allergenic sensitizer.
11. (Previously Presented) The method according to claim 9, wherein the allergen component is derived from pollen of a plant species.
12. (Previously Presented) The method according to claim 11, wherein the plant species is a weed species.
13. (Previously Presented) The method according to claim 12, wherein the weed species is mugwort, ragweed or a *Parietaria* species.
14. (Previously Presented) The method according to claim 13, wherein the weed species is *Parietaria judaica*.

15. (Previously Presented) The method according to claim 14, wherein the allergen component is Par j 1 or Par j 2.

16. (Previously Presented) The method according to claim 9, wherein the allergen component is synthetic, recombinant or native.

17. (Previously Presented) The method according to claim 10, wherein the allergen component is derived from pollen of a plant species.

18. (Previously Presented) The method according to claim 17, wherein the plant species is a weed species.

19. (Previously Presented) The method according to claim 18, wherein the weed species is mugwort, ragweed or a *Parietaria* species.

20. (Previously Presented) The method according to claim 19, wherein the weed species is *Parietaria judaica*.

21. (Previously Presented) The method according to claim 20, wherein the allergen component is Par j 1 or Par j 2.

22. (Currently Amended) The method according to claim 10 2, wherein the allergen component is synthetic, recombinant or native.
